

INFORMATION CONCERNING CORONAVIRUS / COVID-19

To all our suppliers, fitters, job applicants, business partners, service providers and the companies commissioned by you

Currently, all visitors of the Kalle-Albert Industrial Park are subject to special rules of prevention against COVID-19. Persons who do not follow these rules are denied access by InfraServ Wiesbaden, the operating company of the Kalle-Albert Industrial Park.

This means that you, or the service providers you have commissioned, will **only have access** to the park and SE Tylose, **if the following rules are obeyed:**

- **Complete a self-declaration form** before entering the Industrial Park and present it during registration
 - This is required to identify persons who belong to the COVID-19 risk group
 - You can print the self-declaration online at www.infraserv-wi.de (downloads) or receive it by e-mail from your host or client on request
- **Wear a mouth-nose protective mask (MNS)** at the registration, as well as in the entire Industrial Park area
 - All visitors are obliged to carry their own MNS with them
 - In your own interest, pay attention to the correct handling of the MNS
- **Follow the hygiene measures** recommended by the Robert Koch Institute:
 - Keep at least 1.5 m of protective distance to all other persons
 - Avoid shaking hands
 - Sneeze and cough in your elbow
 - Make sure you wash your hands regularly and thoroughly
 - Use the existing hand sanitizer dispensers

Please observe these rules for your own protection, the protection of your family, as well as your employees and colleagues. In addition, you help to stop the progressive spread of the COVID-19 virus in Germany.

Stay healthy!

Dr Diethart Reichel

Site Director
